

## **Jaleo's white sangria recipe:**

Makes 1 Liter

- 500 cl. (2/3 of a regular bottle) of cava sparkling wine from Spain, chilled
  - 2 oz. Liquor 43
  - 2 oz. Brandy
  - 2 oz. White Grape Juice
  - 400 cl. Ice
  - 2-3 Fresh Strawberries
  - 1/2 of a Fresh Peach
  - 3-4 White Grapes
  - 1 bunch of Fresh Mint
- 
- Cut the fruit into bite-size pieces (or smaller)
  - Pour the ice into a 1-liter pitcher (or larger)
  - Slowly pour the chilled 'CAVA' down the inside of the pitcher and not directly over the ice; we want to keep the bubbles from fizzing away
  - Pour the Liquor 43, brandy and white grape juice into the pitcher
  - Add the fruit and mint and you are ready to go!
